WASHINGTON PRODUCE.

Quotations given below are for large lots of good in marketable goods only. Jobbers' prices are higher. Lower grades may be sold for less. Pancy goods command higher prices.

On the produce market pesterday receipts nere heavy and the demands week tild hem were off a half cent, milie veal calves showed weak figures. Spring chickens and spring lambs both continued unchanged.

The mark's for fruits and regetables, being well supplied, continued about as Monday. New potatoes, which appeared so hisrify the day before, were in less quantities and the quotations were stronger. With these goods coming from Florids, Georgia, and south 'arolina now, it was expected that when home grown and Virginia potatoes come the market will be easy.
